WHY TBB WORKS

No PowerPoints here! Our approach is to engage and learn by doing.

- 1** The information and approach is novel. Applying principles used by legendary musical icons keeps your interest.
- 2** You actually use the skills during the session so you stay engaged throughout the sessions.
- 3** You learn from each other and therefore bond as colleagues.
- 4** You commit to use what you learned back to the job.

Our facilitators are experienced business and musical professionals who were educated at Columbia University, Harvard Business School and the Berkeley College of Music. They have played with premier acts including Bruce Springsteen and Michael McDonald. So, we make each session entertaining and we apply it to everyday life.
